

# Rules

- The rules are listed on this page and each page above its outputs.
- You need to use different file names for your questions.
- You need to use **30 pixels** for the fonts of your output string .
- Please download your question-sheet (p.s. enter the course) for the midterm.
- Please download the photos (p.s. announcement board) for the midterm.
- **50** minutes only for the midterm.

- The strings should be in center, and the same as illustrated.
- The colors should be the same as below. This output uses **black** or **red**.
- Exactly 3 photos shown below. Different photos are all right.

## KSU Hotel

Style 1

\$6500

Style 2

\$9000

Style 3

\$9500

- The strings should be in center or LHS, and the same as illustrated including styles.
- The colors should be the same as below. This output uses **black**, **yellow**, or **lightblue**. And, two blank rows between the outputs below.
- Exactly same span formats shown below on table 4x3 on second output, and exactly 3 photos shown below on the 1<sup>st</sup> output. Different photos are all right.

### My classmates

| Firstname |   | Lastname/ age |
|-----------|---|---------------|
|           | A | B             |
|           | C | C             |
| D         |   |               |

- The strings are the same as illustrated including styles.
- The colors should be the same as below. This output uses **black**.
- The checked default radio button goes to the “Male” option.
- The following is an image button rather than an image. Please place it in the correct position as follows.

First name:

Last name:

- ☒ Male
- ☐ Female
- ☐ Other

- The strings are the same as illustrated including styles.
- The colors and default values should be the same as below. The output uses black. The components should be in the correct positions as follows.
- The option size of selection menu is 3. Some notes inside the following box can be treated as a reminder for your coding.

## Writing:

You can type it here by using textarea tag with row size 10 and column 30. Additionally, perhaps div tag may be used in setting up a fixed position. Inside selection, Samsung note 7, Samsung note 8, Samsung note 9, Samsung note 10, and Samsung note 11 need to be set up.

First name:

Last name:

Your student ID:

Samsung note 7  
Samsung note 8  
Samsung note 9
